FROM THE DESK OF THE PRESIDENT

It gives me pleasure to inform that the Prerna International School, Vhirgaon, is going to publish its Annual Magazine 'PRERNA' 2022-23. The magazine is presenting a wonderful and unique approach for the students' writing skill and their imagination. We always offered our students ample opportunities to explore their interests by giving right platform to express their views and new ideas. We believe in preparing students for future by providing knowledge and skills to achieve over all excellence in their personality. I am blessed with thoughtful, engaged Board leadership team and board of Trustees of "Prerna Sewa Mandal" who are always focused on doing what is best for our students. We always create the favorable environment for students, so that they can carve excellent success in their academics, sports and materialize their natural talent. Principal, teachers and students of their educational institutions have abundant opportunities to foster the spirit of enquiry and harmony with the best available infrastructure, environment through all academic and co-curriculum activities. With best wishes.

Prof. R. C. Gulhane
(President)
Prerna Sewa Mandal, Nagpur

FROM THE DESK OF THE SECRETARY

I am delighted to write that Prerna International School, Vihirgaon is publishing another edition of its Annual Magazine "PRERNA" – 2022-23". We are excited about building upon, our successes academically, athletically and continuing our positive influence in the community through systematic developmental approaches in our school. In Vihirgaon, we have a vast and naturally beautiful eco-friendly school campus spread over more than twenty acres of land which is proximate and well-connected place of Nagpur. This magazine has a testimony of recorded achievements of our students' success in academic, sports, and extra co-curricular activities during the academic sessions. The school is working towards providing students all round knowledge along with ground level practical experiences. We have brought changes in entire system of academic and administrative level for noble cause of teaching, learning for the benefit of our students. I have every hope that this school will continue to play its major role in the educational sphere of C.B.S.E. institutions and will direct its efforts towards the all round success of our students Best and warm wishes for the future endeavor.

Dr. S. C. Gulhane

(Secretary)

Prerna Sewa Mandal, Nagpur

FROM THE DESK OF CHIEF EXECUTIVE OFFICER

I am very pleased to know that Prerna International School, Vihirgaon is launching its Annual Magazine. The magazine is presenting a glimpse of the overall growth of the institution in every aspects. Magazine serves the very purpose of motivating students to develop their writing skill, lateral thinking and also helps toward the power of concentration. I would like to state that, Prerna International School curriculum and practices are periodically reviewed to ensure implementation of updated best practices. One of the largest area of growth is the increased use of latest technology across class room to computer laboratory. We are proud to inform to students and parents that school is totally equipped with 'smart classes' facilities with a proven technology through digital learning. A landmark development in teaching-app in our school, which is well connected with internet, capable in sharing updated information in academics. Our mission is to provide positive catalytic impulse to every student to realize his / her interest, competency, skill and real strength. I sincerely wish that Prerna International School will quietly carry on its tradition of excellent work in academic and prepare many young stars for a bright and happy future.

Ms. Abhilasha Gudadhe
C.E.O and Member of
Prerna Sewa Mandal, Nagpur

FROM THE DESK OF THE PRINCIPAL

"The most effective tool you have to alter the world is education."---Nelson Mandela Prerna International School provides knowledge to our pupils and develops responsible citizens through this potent and effective means. Our goal is to instill fundamental values that survive the test of time in addition to bettering knowledge. If we know how to live, life is lovely. However, if we do not carry our ideals and values with us, they may also become challenging. Here, we, the facilitators, help the younger generation to develop moral values. We strive to do this by creating a supportive environment where educators can encourage attitudes and beliefs that encourage growth. We work to improve the three facets of a student's personality, including their physical appearance, mental outlook, and moral character, under the direction of our management. Furthermore, the Robotics course is launched at our school as part of our efforts to broaden students' horizons and prepare them for the technological world in which we live. We are encouraging participation in interschool competitions while giving them a stage on which to showcase their talents through various curricular activities. Their academic and personal development are significantly shaped by our school's culture, teachers' personalities, and efforts. Prerna International School, a temple of learning, is devoted to the noble cause of education. "Climbing to the top demands strength, whether it is to the top of Mount Everest or the top of your career."

THE MAGIC OF LITERATURE

Literature plays a powerful role in helping us understand the alchemy of nature—the magical transformation it brings to our thoughts, emotions, and lives. Both Hindi and English literature reflect this connection deeply. Hindi poets like Sumitranandan Pant see nature as divine. In his poem, he writes, "मैं तुम्हारे ही स्वर से स्वर मिला पाऊं प्रकृति!" (Let me match my voice with yours, Nature!), showing how humans seek unity with nature. Mahadevi Verma often presents nature as a silent companion to human emotions. In her poem, she writes, "नीरव नभ में चिर विरह रागिनी," meaning the silent sky sings the eternal song of separation, linking human sorrow with nature's silence. English poets also explore similar themes. William Wordsworth, in "Lines Written in Early Spring," writes, "And much it grieved my heart to think / What man has made of man," while surrounded by peaceful nature, showing how nature offers contrast and healing to human suffering. John Keats, in "To Autumn," writes, "Season of mists and mellow fruitfulness," portraying nature's calming and rich presence. Such examples show how literature helps us see nature as a living, emotional force. It connects us to the earth, encourages reflection, and reveals the harmony between human life and the natural world.

WHAT IT TAKES TO SUCCEED IN COMPUTER SCIENCE

In this Era, computer science is the study of computers, algorithms and data. Computer science isn't just about writing code: it involves problem-solving, critical thinking and developing solutions that improve processes across industries like healthcare, finance, engineering and entertainment.

The scope of modern computer science stretches beyond hardware and isolated systems to emerging fields like artificial intelligence, cloud computing, cyber security and big data analytics. This broad spectrum provides numerous avenues to explore, all of which are vital for understanding and building build the technologies that are shaping our world.

Computer science skills span a range of technical and analytical competencies that enable professionals to solve complex problems using technology. These skills can range from foundational abilities such as coding and programming to more specialized knowledge like AI development or block chain technology. These abilities are not just for IT professionals but are becoming essential in areas like marketing, operations and management as companies increasingly rely on technology-driven solutions.

To be continued

In an era where automation and digital transformation are reshaping entire industries, having strong computer science skills can provide a competitive edge. These skills enable individuals to contribute to innovation, enhance operational efficiency and drive their organizations forward. They empower professionals to stay relevant in an ever-evolving job market, ensuring long-term career success. Additionally, the rise of fields such as big data, cloud computing and the Internet of Things (IoT) has made the need for skilled professionals in computer science more critical than ever before.

Computer science is more than just a discipline—it's a foundational pillar of the modern world. It empowers individuals and organizations to innovate, adapt, and thrive in a rapidly changing digital landscape. As we continue to rely on technology to solve complex problems and improve lives, the importance of computer science will only increase, making it one of the most valuable fields of the 21st century.

Lessons Beyond the Syllabus

“Not every lesson is found in a textbook some are written quietly in the margins of everyday moments”.

Every textbook comes with a table of contents neatly laid out chapters, unit tests and revision exercises. But as teachers, we know that not all lessons fit between two covers. Some of the most meaningful teaching happens quietly between lines of chalk and the rhythm of the school bell. These are the lessons beyond the syllabus.

In the classroom, I teach subjects but more than that , I witness growth, I see students learning how to handle disappointment after a poor grade, how to speak kindly when a friend is down, and how to take ownership of their actions. These are not part of the format curriculum, but they are the moments that shape character.

One moment that really touched me happened recently when I was away for a few days, assigned to evaluate 12th standard biology board papers. When I returned , a student looked at me and asked with genuine concern.

“Teacher, why were you absent”?

To be continued

Lessons Beyond the Syllabus

That simple question reminded me that teaching isn't just about delivering lessons its about presence, connection and the silent bonds we build with our students every day. In that moment, I felt seen not just as a teacher, but as a person who matters in their little world.

everyday brings subtle opportunities to teach empathy, respect, time management, resilience and kindness,. When students help another without being asked, when a group works together and truly listens to each other that's when real education is happening.

As educators, we are not just preparing students for exams. We are preparing them for life, and life will test them in ways that no question paper ever could them to the students reading this.

remember that marks matter, but so do manners. Grades are temporary , but values last a lifetime. Don't just learn the syllabus learn to be patient , responsible, honest ad courageous. Because when school is over, it's these quiet lessons that will guide you through the toughest chapters of life.

“Every lesson today builds a brighter tomorrow”.

ONE LAST QUESTION

I 'm 16, why life's
every circumstances or drastic changes
occurs at my age only?
Why from every corner, life tells me,
You are alone ? You are failure?
Parents, friends, even study too from
Everywhere only one feedback
You can't do it, you are alone?
Why life's every important decision occurs in
My age only?
Why people's real face looks
So terrible in my age only?
Are humans really chameleon?
Why this "love" word is invented?
Why people come closure and then leave?
After every question, the thing is MATURITY
is when you realize only love yourself,
Because its just you who can help or will stay
in every stage of life !!!

THE SHINING STAR

The shining star in the sky
Looks so beautiful,
I think I could touch the pretty moon
As soon as so soon

The moon is white and,
The stars are shining,
stars come at night and
Go back in the morning

Whenever I see the star's
Are not in a line,
I want that all star's
Could be mine.

मेरी माँ

मेरी माँ है सबसे अच्छी,
है वो घर की रानी ।

सुबह मुझे डाँट कर उठाती,
घर आने पर, मेरे साथ मस्ती करती ।

दिखती है वो भोली,
हर वक़्त मुझे प्यार करती ।

है वो बड़ी सुंदर,
है वो बड़ी सुंदर.....

नीली पेंसिल पीली पेंसिल

नीली पेंसिल, पीली पेंसिल,
इनसे मिलती सबको मंजिल ।
कोरा कागज़ काला करती,
ना है रूकती, ना कभी थकती ।

गलती करने पर नहीं चिढ़ती,
उसे मिटाकर सही है करती ।
माँ जैसा दिल बड़ा है इनका,
खुद है घिसती, कुछ ना कहती ।

बड़े जो होंगे हम सब इतने,
पेंसिल सा बन जाएंगे ।
जिन्हें न आता है सब कुछ,
लिखना उन्हें सिखाएंगे ।

लिखना उन्हें सिखाएंगे,
कभी नहीं घबराएंगे ।
घिस जाएंगे गर्दन तक पर,
चलते चले हम जाएंगे ।

पौधा

मैंने भी ऐसा ही
एक पौधा हाथ से लगाया,
देखो, अब यह बड़ा हुआ है ।

अब मेरे आँगन में
पंछी चहचहा रहे हैं ।
और फूलों से
वातावरण सुगंधित है ।

मेरा पेड़ छाया देने में
भेदभाव नहीं करता,
हमें भी इस पेड़ की
तरह रहना चाहिए ।

भूगोल

भूगोल ने रची ऐसी माया,
जिसमें है सारा संसार समाया ।

भूगोल ने दी है ज्ञान की ऐसी दिशा,
जिससे हम समझ पाए है, पृथ्वी की हर दशा ।

भूगोल एक ज्ञान है,
जिसका हम सब करते सम्मान है ।

प्रदूषण को करो नष्ट,
पर्यावरण को मत दो कष्ट ।

पृथ्वी ने दिया है हमें विश्वास,
भूगोल ने दी है जीने की नई आस ।

पृथ्वी है, तो जीवन है,
भूगोल के वजह से यह सब संभव है ।

यह भूगोल की माया है,
जिसकी हमने सरल शब्दों में समझाया है ।

सुहाना सवेरा

सूरज की किरणे आती है,
अंधकार सब खो जाता है |
सारी कलियाँ खिल जाती है,
सब जग सुंदर हो जाता है |

ठंडी-ठंडी हवा सुहानी,
चिड़ियाँ गाती हैं मिलजुलकर,
मधुर गीत सुनाती सबको,
सुबह और सवेरा मीठा करती सबका।

मेरा गाँव

ऐसा है मेरा गाँव,
मेरा गाँव है हरा - भरा,
जैसे कोई हरियाली की दुनिया ।

सर-सर चलती हवा जहाँ,
ऊँचे-ऊँचे पहाड़ वहाँ,
चारों ओर चिड़ियों की चहक
ऐसा है मेरा गाँव ।

कोमल-कोमल धूप,
मुलायम-सी है मिट्टी ।
ताज़ा-ताज़ा सब्जियाँ ,
और मीठे-मीठे फल जहाँ
ऐसा है मेरा गाँव ।

विरामे जहाँ थे श्रीराम - सीता - लक्ष्मण,
पवित्र हो गयी रामटेक की भूमि,
आज गढ़मंदिर है शोभा जिसकी,
ऐसा है मेरा गाँव ।

पिता का प्यार

फिर भी न जाने क्यूँ "पिता" पीछे रह जाता है ।
माँ, नौ महीने और पिता पच्चीस साल पालते हैं ।

माँ, बिना तनख्वाह घर का सारा काम करती है,
पिता, पूरी कमाई घर पे लुटा देते हैं ।

माँ को याद करते हो जब चोट लगती है,
पिता को याद करते हो जब जरूरत पड़ती हैं ।

माँ और बच्चों की अलमारी नए कपड़ों से भरी है,
पिता, कई सालों तक पुराने कपड़े चलाते हैं ।

फिर भी न जाने क्यूँ "पिता" पीछे रह जाते हैं ।

बचपन

एक बचपन का ज़माना था,
जिसमें खुशियों का एक खज़ाना था ।
बचपन की यादें हैं मीठी और प्यारी
खेल खिलौने और माँ की लोरी,
आज भी संभाल के रखी है वह गुड़ियाँ प्यारी ।
एक बचपन का ज़माना था,
जिसमें खुशियों का एक खज़ाना था ।

जब कोई डाँटे तो
माँ के आँचल में छुप जाँँ ।
बचपन के वह सुनहरे दिन, जब हम
खेलते रहते और पता ना चले
दिन और रात कब हो जाँँ ।
एक बचपन का ज़माना था,
जिसमें खुशियों का एक खज़ाना था ।

कभी पापा के कंधो का,
तो कभी माँ के आँचल का सहारा था ।
पढना, खाना, खेलना बस यही काम हमारा था
माँ की गोद में सोते,
तो बहुत आराम मिलता था ।
एक बचपन का ज़माना था,
जिसमें खुशियों का एक खज़ाना था ।

हम समझे वही तो सच्चा दोस्त होता है ।
पर अब भी हम समझ नहीं पाए,
सच्चा दोस्त क्या होता है ?

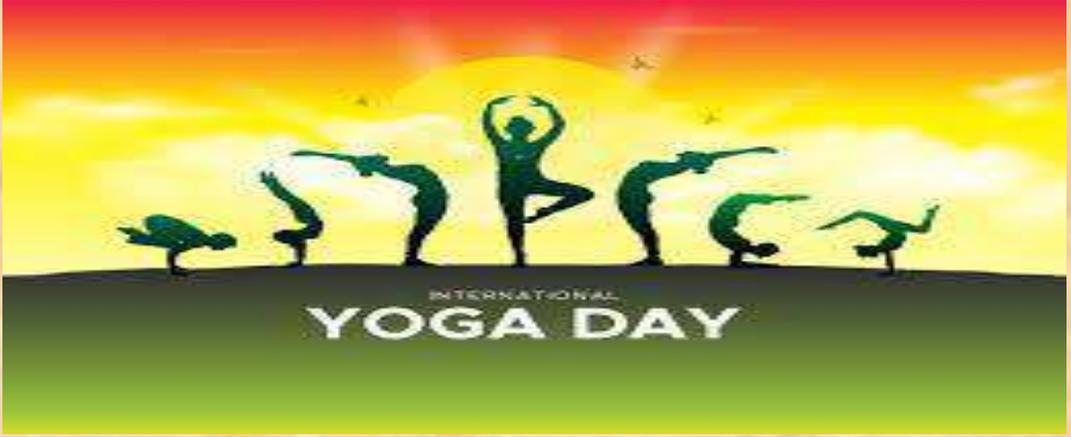

जो हमारे सुख को बेहतर और
दुख को भी अच्छा बनाए ।
वही तो सच्चा दोस्त होता है ।

जो बात हम अपने माता - पिता को न कह पाए ।
इसीलिए तो कहते हैं, दोस्ती है सबसे प्यारी,
दोस्ती फूलों की क्यारी, दोस्ती है सबसे न्यारी ।
